Topeka	KS	66601-1441

This statement is in response to the RFAI, dated Oct 11, 2016, item 2 concerning our beginning cash balance on the July 2016 quarterly not equaling the ending cash balance of the April 2016 quarterly. In previous reports, our software that we use for reporting had not been auto-populating the previous reports end cash on hand but rather the previous reports beginning cash on hand. Since the software was not pulling the right line, I had been forced to hand enter the beginning cash on hand for the reports. When I entered the beginning cash on hand (line 23) for the July 2016 quarterly report, I mistakenly looked at the wrong line on our April 2016 quarterly report - I looked at line 25 instead of line 27 and entered that amount into our line 23 of the July 2016 quarterly report causing the error to occur that is the subject of this RFAI. I have amended all reports that were affected by this error.
